

Cardiff Core Bus Network

Rhwydwaith Bysus Craidd Caerdydd

Core Bus Network Development

As part of the development of the Core Bus Network in Cardiff, we are proposing to deliver a series of bus priority improvements on the A470. These improvements will reduce journey times and increase the reliability of bus services to the city centre.

Improvements along the A470 will be delivered in phases, subject to the availability of funding and the feedback we receive.

The next phase of the works is to deliver a southbound bus lane (towards the city centre) between Gabalfa Roundabout and Parkfield Place.

As part of the scheme other works will be undertaken, including the widening of driveway accesses and the replacement/ removal of trees at the direction of Cardiff Council's Parks Department.

If you have any comments on this scheme please get in touch before 20th September 2012.
