

# Castle Street

## Reopening 2021

As you may be aware, the Council following the period of consultation is reopening Castle Street to general traffic. General traffic will be permitted in both directions and the bi-directional cycleway will remain. To do this, there will be a short period of enabling works.

The enabling works will begin early September 2021 and Castle Street should be fully re-open by the end of October 2021. The enabling works will take place overnight, between the hours of 8pm and 6am.
